

GENEVOX EXALTATION SERIES

Information provided by www.DavidWinkler.com

The Exaltation Series, published by Genevox, is an excellent resource for smaller instrumental groups.

The series is scored in a four-part (SATB) format, with optional piano (rhythm) and percussion. There are four volumes of 10 arrangements each, with 16 books for each collection.

Note that some of the titles (but not all) in the series are available as individual digital downloads from LifewayWorship.com. To find these, just go to LifewayWorship.com and type "Exaltation Series" into the Search Box.

For the complete hard copy versions, [here are ordering instructions](#):

1. Go to Lifeway.com.
2. In the Search box, type "Exaltation Series" and then either "Collection I" (or Collection II, III, or IV). Use Roman numerals, e.g., the letter "I" instead of the number "1".
3. The screen should populate showing the 16 books available for each collection. I have listed the books available below.
4. Each book will be labeled "Part 1" (or 2 or 3 or 4). There's also a percussion book and a conductor's score. Keyboard players (and guitarists) will need to read from the score.
5. There were some very nice demos recorded of this series ... again, some (but not all) of those are available for purchase at LifewayWorship.com.

Here's a list of the 16 books available for each collection:

Book 1 - Part 1, C Treble (Flute, Oboe, Violin 1)

Book 2 - Part 1, B-flat Treble (Clarinet 1, Soprano Sax, Trumpet 1)

SUGGESTION FOR USE

For a mixed ensemble (various winds and strings), “mix and match” the parts to suit your ensemble, being careful to keep a good balance of parts. The series could also be used for like-instrument ensembles, such as a woodwind quartet/quintet, saxophone quartet, brass quartet, or string quartet, each with optional piano.
